

Presentation Rubric

(Total: 15 points)

1. Clarity of Problem (3 pts)

- Problem is clearly stated in plain language
- Importance of the decision is motivated (why it matters)
- Scope is realistic and well-defined

2. Use of Data & Methods (4 pts)

- Data sources identified (real or estimated, with rationale)
- Methods/tools chosen are appropriate for the question
- Connection to course concepts is visible
- Limitations or assumptions are acknowledged

3. Insight & Decision Implications (4 pts)

- Results are interpreted (not just shown)
- Clear link from analysis → decision/action
- Trade-offs or alternative choices are discussed
- Insights go beyond the obvious

4. Timing, Delivery, Team Balance (4 pts)

- Slides are uploaded by midnight on Sunday before the presentations
- Presentation is well-structured and easy to follow
- Visuals/tables/figures are clear and legible
- All team members participate meaningfully
- Presentation is engaging and within time limits (12 min)

Sample Presentation Flow

You should cover:

- Problem definition – why interesting, why important, etc.
- Methods – why appropriate
- Data – sources, simulations, estimations
- Results – interpretations, not just showing numbers
